Samurai of Hyuga Book 2

Show State Restart Achievements

"Toshie is right, kid. These two just—"hiccup"—aren't compatible." Even in my drunken state I could remember the name of Hatch's best friend: Tan-kun. Hatch might be our team's comedy relief as well as a forgiving fellow, but the fact remained that Momoko had poisoned hundreds in Ijinto.

A soft voice and a feminine figure could make most men stupid. Smart women would take advantage of that to get ahead in life. It wasn't right or wrong, it just was part of surviving in Hyuga. Luckily I was mostly immune to womanly wiles by this point. Blame the brothels I guess.

Toshie chimed in as well. "It is only that Momoko-san isn't quite the lady Hachirobei-san believes her to be." I agreed. Any sort of romance between them would only end with a broken heart. Didn't want my drinking buddy to deal with that.

Masami respectfully yet loudly disagreed. "How can you two spout such judgments against Momoko-san?! Kenji, did she not stay by your bedside as you lay dying from poison? Did she not accompany you as you faced the most powerful yakuza family in Ijinto?"

Her cheeks puffed large enough to burst. "She didn't stray from your side—not for a minute while you nearly bled to death from your wounds! How can you claim she is anything but a good person?"

I froze up and looked at Toshie. She looked back at me. Those were some good points that I couldn't argue against. The kid didn't know about the opium—and that wasn't about to change. So Momoko wasn't perfect. Who was?

Why was I really trying to stop my two friends from getting together?

[I wanted Momoko for myself]

[I wanted Hatch for myself]

[It would break the group apart]

[To be honest, I didn't care]

Though I study Astronomy I still love the game so much haha ;) The story, *the music*, and the art style are just amazing! I also tried several times to explore different story lines. The endings don't really differ too much, but I think the branches of stories are good enough for a short game. Look forward to play more games like this!. This game is bad. I played on a lowered resolution for frames. Then after i tried to build a fire i could hardly find wood. I begin to randomly press buttons to find inventory to play fire but the game's unhelpful guide could hardly be read because about half of the damn book was off screen. so i wasnt able to find inventory and died to a bear.. One of the biggest piles of poop I've ever had the displeasure of playing. Please do not buy this even for your worst enemy.. Looks great, works great, is nicely set up and is everything you could want from official DLC for a cheap, cheap price. If you like co-op board games, this is a must buy.. It's a cute Disney game with a lot of clothes, accessories and flowers to unlock, collecting treasures and gems. All little girls should like it.. this game is very physics and has angry man pooping on a city. Good game. Some imbalance in scoring and difficulty due to apparently randomized spawns that don't check the drone's current location. It's possible to be at the spawning point and artificially get full points with no effort. At the same time you could get a bad spawn theoretically and lose points due to no fault of your own. However it's a fun game and this is just some feedback.

Amazing game. Very addictive.. OH MY \u2665\u2665\u2665\u2665ING GOD THIS GAME IS BASICLY EVERYTHING JESUS EVER WANTED TO TELL US!!!! I GOT TO KNOW THE SENSE OF LIFE JUST BY PLAYING THIS TRIPLE A TITLE!! QUICK BUY IT BEFORE THE DEVELOPERS SEE THAT THEY COULD SELL IT FOR 40\$!!!! THIS GAME HAS BROUGHT MY FAITH IN GOD BACK!!!!. For 5.00. Worth it if you plan on playing for a few days even. Fun hack and slash game.. Best choice for new players and for all who wants to keep playing this awesome game. After you got the DLC you will receive a mail in the game. Open it and get all the good stuff. Enjoy!. makes me rage that i cant get past wave 25. Offers a nice challenge to the player and is very cheep.. Well, I waited to buy this game until it was on sale. Today it just happens to be on sale for 5.99 USD as opposed to its 29.99 USD usual price tag. So, I thought I'd give it a round to see what actually people hate on in the game. One thing I noticed right away was no camera movement. The camera is, how can you say it, in predefined positions already. There is no way to rotate the camera which is stupidly annoying sometimes because I like the art style and would like to look around. So far, the game play is just fine. It's your typical, over the top, chain combo madness which isn't a bad thing. Executing enemies feels satisfying as well. I'll write more soon but, I would like to say, even though not having a rotatable camera is stupid idea on the devs part, i think the game play is still a great time.

It's worth the 5.99 price tag right now. I don't really see this as a 29.99 game though.
